Register for a Google Play Developer account

To publish Android apps on Google Play, you'll need to create a Google Play Developer account and follow the following steps:

Step 1: Sign up for a Google Play Developer account

1. Using your Google Account, [sign up for a Developer account](#).

Step 2: Accept the Developer Distribution Agreement

During the signup process, you'll need to review and accept the [Google Play Developer Distribution Agreement.](#)

Step 3: Pay registration fee

There is a US$25 one-time registration fee that you can pay with the following credit or debit cards:

- MasterCard
- Visa
- American Express
- Discover (the U.S. only)
- Visa Electron (Outside of the U.S. only)

Note: Prepaid cards are not accepted. The types of cards accepted may vary by location.

Step 4: Complete your account details

- ❖ Select your developer account type.
- ❖ Complete all the fields for your chosen account type.

For a **personal** account, you must provide the following information:

- Developer name, which is displayed to customers on Google Play
- Contact name
- Contact email address, which must be verified
- Contact address
- Contact phone number in international format, which must be verified
- Website
- Phone numbers in international format begin with a plus (+) sign, followed by the country code, the area code, and the phone number:

+(Country code)(Area code)(Phone number)
Examples: +14155552671, +441234567890

For a **organization** account, you must provide the following information

- Organization name
- Organization address
- Organization phone number, which must be verified
- Organization website
- Contact name
- Contact email address, which must be verified
    - Tip: We will use this to contact you about your account. We recommend using an email address associated with your organization, not a personal email address. For more tips, we included contact information best practices in our Help Center.
- Contact phone number in international format

- ❖ Accept the Terms.
- ❖ Create your account.
- ❖ Learn how to verify your contact details.

You can add more account information after you've created your account.

> **Note**: To process your request for a Play Developer account you may be asked for a valid government ID and a credit card, both under your legal name. If this information is determined to be invalid, your registration fee will not be refunded.

FATbit Recommendation is to purchase an Organization Account only if all the documents are available to verify the Business. Otherwise go with an individual account.
